You know our name. Come discover who we are.

For over 20 years, Semco Stone has been setting the standards for quality natural landscape stone. Located in Missouri, near the Mississippi River, Semco resides in the heart of Limestone Country. Our local quarries; Cedar Ridge and Blue River, provide a bountiful harvest of six distinctively different limestones. And our Brentwood Quarry boasts one of the most beautiful sandstones you will ever see. As the largest distributor of natural stone in the Midwest, Semco’s Perryville, Missouri yard occupies over 60 acres with an abundant inventory of natural stone varieties, a state of the art fabrication facility, tumbling and bagging operations, and our sales and corporate offices. Our Kansas City facility, Semco Outdoor, located in Belton, Missouri is a 20 acre sales and distribution center. The product offerings at both locations include; landscape stone, a variety of retaining wall stone, natural and man-made paving materials, water gardening supplies, slabs, and landscaping accessories. Semco also produces and distributes natural building stone veneer, including full and ThinCut™. We have provided the elegant beauty of Mother Nature’s time-tested products to contractors, developers, nurseries, landscapers, garden centers, and retail outlets across the country since 1988.

Our Promise?
At Semco, we’re a partner who is committed to your success. We provide you with solutions to the most demanding landscaping challenges. We offer a support system unrivaled in the industry. We will not sell a product and walk away.

Welcome to Semco.

Installed either dry stacked or mortared, natural stone retaining walls have unparalleled beauty. 8" Drywall allows your project to reflect the timeless beauty of natural stone with refined dimension. Our Drywalls are available in a variety of stones, whether you are looking for the rugged look of natural bed heights or the more formal appearance of sawn heights. Our selection will allow you to find the right stone for your project. Heights of this stone range from 2" to 8". 8" Drywall typically has random lengths, and has snapped depths of approximately 8".

Natural Wall Stone lends itself to easy construction and allows a landscaper design flexibility. Retaining walls constructed of Natural Stone enhance a landscape throughout seasonal changes and become more appealing with age. Available in selections which include weathered, split, or tumbled, these stones will range in size from 6” to 24” in diameter, with thickness between 1” and 6” depending upon your stone choice. We have a wide array of colors that can complement any existing exterior landscape.

#202 Weathered Fieldstone 3" - 5"
Mortared or dry stacked, Steppers can be used for small retaining walls, as stepping stones, or for walkways. Small size and irregular shapes are indicative of this natural stone material. Steppers are typically between 1/2” to 2” thick with diameters that range from 6” for Shims to 36” for our largest Stepper. This stone is available in many of the same selections as our flagstone material, in a variety of colors and sizes.
#331 Hickory Gray 2" Steppers
also available in 1/2 ton pits.

#330 Hickory Gray 1" Steppers

#303 Oakfield Steppers

#318 Plumbwood Steppers
Flagstone has traditionally been used in applications such as patios, paths and walkways. Utilized for both interior and exterior applications, Flagstone can beautify any area from an English Garden path to an indoor pool surround. Our Flagstones are available in thicknesses that range from 1/2" to 3" and diameters from 12" to pallet size sheets, depending on your selection. At Semco Stone we strive to offer a wide selection of color, texture and sizes for all applications.
Used mostly in water features, these smooth textured rounded stones offer a unique accent to any landscape project. Cobbler's can also be used as Edging, in dry creek beds, or to accent plant beds. The small size of these stones allows for easy handling and rapid installation. Cobbler's are available in sizes that range from 1” to 16” in diameter in an endless assortment of colors to choose from.

Natural Stone Edging provides defined lines with a natural appearance to landscape designs. Most often seen as Edging for plant and flower beds, Natural Stone Edging can also be used as a curb for paths and driveways or as a cobblestone for walkways, entrances and drives. Available in a variety of styles including machine cut, sawn and tumbled material. Natural Stone Edging is typically square or rectangular in shape and ranges in size from 4" to 16" long, and 3 1/2" to 5 1/2" thick depending upon your choice of stone.

Caps and Coping are generally mortared into place and typically used to top stone walls and columns. Semco's Caps and Coping can provide the finishing touch to countless applications from natural stone retaining walls to outdoor fire-pits. Sawn Caps are available in standard sizes of 29"x 29"x 4" high and 32"x 32"x 4" high pieces. Custom sizes are available with special finishes to complement any look. Semco can custom fabricate coping, step treads, risers and anything else you can dream up.

Many different sizes Pond Kits available, see your Semco F.G. for more information (kits do not include pump, order pump separately)
Aquascape started from a 12-year old boy’s hobby and developed into an award winning, multi-million dollar company. From our quality water gardening products to a LEED® (Leadership in Energy and Environmental Design) certified building, Aquascape plays an integral role in the world to enhance the environment and beautify landscapes across North America. Since it’s beginning Aquascape has went on to become the leader in the Pond industry, offering everything you’ll need to create the water garden of your dreams.

Shipping and Delivery

Because of our Midwest location and our growing transportation options, we can offer an unprecedented variety of stone products from all over the world for an expanding market at prices that make sense.

Please call for current freight rates. (Additional freight charges may apply on products as noted in our price book). Jobsite delivery and lift fee charges apply. Semco products ship in full pallet quantities only. Load changes must be done prior to 2:00 p.m. the day before scheduled shipping. Semco special offers and discounts do not apply to freight. Due to fluctuations in fuel prices, loads are subject to fuel surcharges.

Products can be mixed and matched to obtain best quantity price discounts. Additional charges for pallets and pallet covers may apply.

Payment Options and Terms

Payment terms are net 30 days on approved credit. Service charges accrue at the rate of 1.5% per month (18% APR) on all invoices not paid by due date. Accounts 60 days or more past due are subject to COD only terms and/or suspension of delivery. Semco Stone accepts cash, check, money order, Discover, Mastercard, Visa, or Check By Fax (please contact Semco's credit department at 800-614-1072 for details). Accounts without proper tax I.D. number information on file will be assessed applicable taxes.

Special Order and Return Policy

Special Order material requires a non-refundable 50% down payment prior to material being fabricated. No returns accepted on Special Order material. Prices do not include templates, patterns, or engineering unless otherwise indicated.

There will be a 20% restocking fee plus freight on all returned items. No returns after 30 days. No partial pallets accepted.

Prices are subject to change without notice. Stone products are a natural product and subject to the natural variances in color and quantity. Please make your selection from actual samples whenever possible.
